JENSEN DENTAL

Featured Product: Imagine Zirconia System

With a strength of 769MPa, the new Imagine Zirconia System from JENSEN DENTAL now includes customized, Imagine-specific shading liquids and ceramic layering materials. It's a complete, fully compatible system that gives you everything you need to optimize the esthetics of full contour, monolithic, traditionally layered or minimally layered zirconia restorations. Use it in combination with Jensen's InSync Stain and Glaze.

Booth Bonus: Attend hourly education sessions to gain valuable insights, tips and techniques from industry-leading technicians using today's hottest materials and processes. Plus, get special discounted pricing only available to LAB DAY show attendees. Come be informed and inspired.
