Jensen Dental Announces Launch of the Preciso Education Connection; Contains Suite of Online Tools for CAD/CAM Users

NORTH HAVEN, Conn. – Jensen Dental today announced the launch of the Preciso Education Connection, a suite of online tools and information for users of the Preciso Digital Dentistry Solution.

The Preciso Education Connection makes it easy to access a variety of useful information for Jensen's CAD/CAM system. Assets available on the website include a variety of videos on each step of the digital restoration process including equipment set-up, scanning, designing, milling, restoration characterization, and sintering as well as a Frequently Asked Questions section containing additional helpful information. Also available on the site are a variety of recorded educational webinars providing additional instruction and education for each aspect of the Preciso Digital Dentistry Solution.

“Jensen has built its reputation with dental laboratories over the last 35 years in large part due to our commitment to education. As Jensen continues to evolve and help our customers grow, the Preciso Education Connection is a natural extension of our educational offering. This resource is intended to make it easy to access the instructional information our digital customers need to integrate digital into their workflow, and consistently create beautiful results while increasing efficiencies in their lab.” said Joseph Carofano, General Manager of Jensen Dental.

Current users of the Preciso Digital Dentistry Solution can visit www.PrecisoEducation.com to begin accessing these new tools immediately. Dental laboratories looking to learn more about the Preciso Digital Dentistry Solution and how materials such as Lava Plus High Translucency Zirconia and Lava Ultimate Restorative can help differentiate their lab are encouraged to visit www.PrecisoDental.com. Visitors to this site can learn more about the various components of Preciso through a variety of resources including, white papers, webinars, and ROI calculators. They can also call 800-243-2000 and ask to speak to a Jensen Sales Consultant for a one-on-one consultation on how to create beautiful results through digital dentistry.

About Jensen Dental
