2014 JENSEN XT Zirconia Road Show Series

North Haven, Conn. –On Tuesday 10/28, Jensen Dental made their first XT Zirconia Road Show stop in Connecticut where industry expert Don Cornell walked attendees through a systematic process to produce superior end results through coloring, staining and glazing full contour XT Zirconia restorations using proprietary liquids and InSync Stain & Glaze.

Attendees learned critical elements for creating highly predictable esthetic outcomes for CAD/CAM provisionals, full contour and layered zirconia restorations, and complex implant cases. This month Jensen has stops planned in both Minnesota and Florida. Contact your Jensen Sales Consultant for information on JENSEN XT Zirconia Road Show dates and destinations near you!
