Jensen XT Zirconia

Produce life-like restorations with Jensen XT Zirconia, one of the most translucent high strength zirconia materials on the market today. Indications include frameworks, monolithic and single units to full arch restorations.

- Unmatched translucency and esthetics for a high strength zirconia (1100 MPa)
- Consistent shade match in thick and thin areas (crown or pontic)
- Superior millability and fit for single crowns or long span bridges
- Available in unshaded & preshaded single color shades based on the VITA Classic Shade Guide
- Available in a range of 10-25mm x 98mm discs and Lava™ frames
